
915 MHz Flexible Quarterwave**VEND ANTENNA**

Performance: These antennas provide unity gain in a flexible whip "RUBBER DUCK" type design intended for permanent installation in vending type applications. They have a power handling capacity of 100 watts.

Weather Resistant and Durable: "O" ring seals and nickel plated brass external mounting parts provide excellent weather protection.

Secure Mounting: The mounting style used for these antennas is such that removal from outside the box is virtually impossible.

Options: Frequency and connector options are available.

**SPECIFICATIONS:**

FREQUENCY RANGE:	900-930MHz
GAIN:	Unity
IMPEDANCE:	50 ohms
POWER RATING:	100 watts
VSWR:	<1.5:1
RADIATOR:	Helical coil, polyolefin coated
LENGTH:	3 ½ "
HARDWARE:	Brass & nickel plated brass
MOUNTING HOLE:	7/16"
